LABORATORY SAFETY TRAINING

Dear Student,
You are enrolled in the no fee online laboratory safety training course that is associated with one or more of your courses/labs. This online lab safety training (13 modules) must be completed prior to the close of business for the 12th class day (September 9, 2015). If the training is not completed you will be dropped from your courses/labs. Once dropped, you will have until the close of business for the 20th class day (September 21, 2015) to complete the training for reinstatement purposes which will result in you being assessed the \$100 reinstatement fee. If the training is not completed you will remain dropped from the associated courses/labs for the semester.

You may access the required lab safety training from the University homepage through Blackboard Learn (https://blackboard.tamuk.edu/webapps/login/); if you have any questions please contact your faculty advisor, lab safety coordinator, or myself at X2237.

Please use Internet Explorer or Safari to view the Lab Safety Videos.

Respectfully,
R. S. Creel Ph.D., CSP; CCEP
Executive Director, Enterprise Risk Management
